

TECHNICAL SHEET

RED 2011

Category – Red wine from the Portuguese Alentejo Region

Soil – Mediterranean prairie soils

Climate – Iberian Mediterranean

Facing – Predominantly southern facing across a slightly sloping sun soaked 30 hectare expanse of vineyard in the heart of the Alentejo

Grape Varieties – Trincadeira, Aragonez and Alicante Bouschet

Technology – The vinification process was carried out in a controlled temperature environment (25-28 °C) and followed by enduring maceration (+/- 20 days). Stored and aged for 12 months in French and American oak barrels before another six month in bottle ageing process.

Wine tasting evaluation – This wine results from a combination of three complimentary grape varieties: Trincadeira, Aragonez and Alicante Bouschet. This intensely garnet coloured wine contains a delicate aroma of blackberries and plums accented by notes of vanilla, (without effect of oak barrel ageing). In order to preserve its natural qualities, this wine has not been stabilized. Best served at 18°C (64°F) and in a glass appropriate to enhancing its particular characteristics.

Oenologist – Eng. Francisco Pimenta | **Producer** – Monte da Comenda Agroturismo, Lda.

Quantity – 59,400 0.75 Lt. Bottles | 5,000 0.375 Lt. bottles

Availability – Portugal; Germany; Brazil; the United Kingdom; Denmark; Netherlands; Belgium.

Wine Masters Challenge

2006 - Red 2003 – Bronze Medal
2007 - Red 2004 – Silver Medal
